

Press release
May 15, 2006

Canada's ENERGY STAR® Market Transformation Awards 2006 was held in Toronto on May 4th 2006.

These awards recognize companies and organizations that have surpassed the competition in offering Canadian consumers the most energy-efficient product, technology or service available on the market.

THERMOPLAST is proud to announce that they have won in the “**Advocate of the Year – Specific Product**” category.

This award was greatly coveted by all of Thermoplast's team, especially the R & D department managed by Mr. Jean Marois whom has been developing products that exceed the most stringent energy-efficient standards in the window and door industry.

Thermoplast has become a leading advocate of ENERGY STAR by offering to its customers, its business partners and Canadian consumers the best energy-efficient products, technology and service available on the marketplace which set us apart from the competition. From the 79 manufacturers who joined the ENERGY STAR program, 20 are Thermoplast's business partners.

The **Advocate of the Year** was presented at an awards dinner hosted by the deputy minister of the Natural Resources Canada, Mr. Richard B. Fadden.

Thermoplast will continue to aggressively promote this international symbol on energy-efficient products through its advertising campaigns, its promotional material and by helping its partners to qualify for the ENERGY STAR program.

Messrs. Jean Marois, director R & D department and Michel Pepin, technical services, are receiving the award from Mr. Richard B. Fadden.
