

ANNOUNCEMENT

Yvan Houle

Michael Coccia

Pierre Grand'Maison, the President of Thermoplast Inc., is pleased to announce their new corporate structure to develop the U.S. market.

Mr. Yvan Houle has been appointed U.S.A. Sales Manager. Yvan has over ten years of experience in the window and door industry, mainly involved in the product and business development of various Canadian fabricators. His task is to establish, develop and support a separate division fully dedicated to the U.S. market.

Thermoplast has also appointed Mr. Michael Coccia as Northeast Sales Representative. Formerly in a similar

position for Caldwell Mfg., he is a well known figure in the Northeast and has a proven record for customer service and professionalism.

Thermoplast is one of Canada's largest extruders of PVC profiles fully dedicated to the window and door industry. Thermoplast is offering to the market fully adapted PVC window systems for new construction and renovation and a complete line of sliding doors.

Thermoplast's intention is to export success factors that made it a large and highly respected PVC extruder in Canada : quality, service, innovation and true partnership with its customers.
